India

A seasoned tech leader with a passion for nurturing and guiding teams through intricate software development projects. Possesses extensive expertise in full-stack Python (FastAPI, Django) and React development, creating a collaborative and results-oriented environment that consistently delivers groundbreaking software solutions that surpass project expectations.

SKILLS

- Python Backend
- React Frontend
- Linux
- Team Leading
- AWS Cloud
- Flutter

EXPERIENCE

KPMG Assurance and Consulting Service, Pune – Associate Consultant

NOV 2022 – PRESENT

- Spearheaded the development of a Financial and Risk management tool, primarily focusing on the backend (Django).
- Led and successfully delivered an Operational Risk solution for a prominent bank in Vietnam, collaborating with a team of three developers.
- Received "Above and beyond" recognition for outstanding contributions to the Operational Risk solution.
- Implemented code standards, reviews, and compliance guidelines, resulting in enhanced code quality, maintainability, and reduced bug resolution turnaround time.
- Documented technical requirements and prepared comprehensive technical documentation. Engaged in client interactions to deliver optimal technical solutions and guided IT teams in deployment strategies.
- Contributed to the development of a basetool that significantly reduced the time required to initiate new projects.

HTS Tech Solutions, Pune – Software Engineer

SEPT 2021 – NOV 2022

- Proven expertise as a full-stack developer, leveraging the FastAPI, React, and Flutter stack to deliver innovative and impactful solutions.
- Successfully architected and developed enterprise-grade driver monitoring software for delivery drivers, achieving over 3,000 drivers.
- Demonstrated expertise in developing Android Enterprise mobility management solutions, spearheading development strategies, implementing solutions, and planning deployments.
- Played a pivotal role in conducting proof-of-concept (POC) projects and developing demo products to drive business growth and expansion.

Flentas Technologies PVT LTD, Pune – AWS Cloud Engineer

JAN 2021 – SEPT 2021

- Leveraged AWS cloud computing and infrastructure to develop innovative and scalable software tools.
- Demonstrated proficiency in Python, consistently delivering high-quality code on a tight deadline.
- Led the development of an internal cloud cost and usage reporting tool, empowering stakeholders with data-driven insights to optimize cloud spending.
- Made significant contributions to the migration of Asia's largest IoT kitchen from on-premises to the AWS cloud, ensuring a seamless transition and enhanced performance.

EDUCATION

SKN Sinhgad Institute of Technology, Lonavala – Bachelors of Engineering

Computer Engineering, Jun 2017 – Mar 2021, SPPU Pune

- Completed bachelors of engineering majoring in computer engineering with CGPA of 7.69. Developed exam management software for the collage.
- Volunteered for software training of the students for industry readiness under the guidance of DSC and GDG.

PROJECTS

Shivsut Shop – Ecommerce for books

shivsut.com

- Single vendor e commerce app for books with admin dashboard and analytics with built in payment integration and order tracking serving 10,000 + products.
