dhiraj.homonovus.in
India

Highly skilled senior software engineer with 3 years of experience, adept at tackling complex challenges with innovative solutions across full-stack technologies. My expertise spans Django, FastAPI, React, NodeJS, Linux, and Docker, enabling me to architect scalable and efficient software systems.

SKILLS

- **Frontend:** React, Svelte, Tailwind, Material UI, Flutter.
- **Backend:** Django, FastAPI, NodeJS.
- **Database:** Postgres, MySQL, MongoDB
- **DevOps:** Linux, Docker, Jenkins, AWS
- **Other Tools:** Supabase, Firebase, GoAuthentik (IAM Provider), MinIO (S3 compatible)

EXPERIENCE

Senior Software Engineer— *KPMG Assurance and Consulting Services, Pune*

NOV 2022 – PRESENT

- Designed, Developed and delivered the serverless environment to run on-demand ETL scripts with a performant cold start of fewer than 10 seconds and hot starts of less than 3 seconds.
- Led and successfully delivered an Operational Risk solution for a prominent bank in Vietnam, collaborating with a team of three developers.
- Received "Above and beyond" recognition for outstanding contributions to the Operational Risk solution.
- Implemented code standards, reviews, and compliance guidelines, enhancing code quality, and maintainability, and reducing bug resolution turnaround time.
- Documented technical requirements and prepared comprehensive technical documentation. Engaged in client interactions to deliver optimal technical solutions and guided IT teams in deployment strategies.
- Pitching the idea of the development of a base tool and superheaded its development significantly reduced the time required to initiate new projects by around 1 week.

Senior Software Engineer — *HTS Tech Solutions, Pune*

SEPT 2021 – NOV 2022

- Proven expertise as a full-stack developer, leveraging the FastAPI, React, and Flutter stack to deliver innovative and impactful solutions.
- Successfully architected and developed enterprise-grade driver monitoring software for delivery drivers, achieving over 3,000 drivers.
- Demonstrated expertise in developing Android Enterprise mobility management solutions, spearheading development strategies, implementing solutions, and planning deployments.

- Played a pivotal role in conducting proof-of-concept (POC) projects and developing demo products to drive business growth and expansion.

Cloud Engineer — *Flentas Technologies PVT LTD, Pune*

JAN 2021 - SEPT 2021

- Leveraged AWS cloud computing and infrastructure to develop innovative and scalable software tools.
- Demonstrated proficiency in Python, consistently delivering high-quality code on a tight deadline.
- Developed the internal cloud cost and usage reporting tool, empowering stakeholders with data-driven insights to optimise cloud spending which led to savings of approximately $ 15,000 annually.
- Made significant contributions to the migration of Asia's largest IoT kitchen from on-premises to the AWS cloud, ensuring a seamless transition and enhanced performance.

EDUCATION

Bachelor of Engineering — *SKN Sinhgad Institute of Technology, Lonavala*

Computer Engineering, Jun 2017 - Mar 2021, SPPU Pune

- Completed bachelor of engineering majoring in computer engineering with a CGPA of 7.69. Developed exam management software for the college.
- Volunteered for software training of the students for industry readiness under the guidance of DSC and GDG.

PROJECTS

Shivsut Shop — *Ecommerce for books*

shivsut.com

- Single vendor e-commerce app for books with admin dashboard and analytics, built-in payment integration, and order tracking serving 20,000 + products.

Novotic — *Project management solution.*

novo-tic.web.app

- Single vendor e-commerce app for books with admin dashboard and analytics, built-in payment integration, and order tracking serving 20,000 + products.
